

FOG DIS-INFECTANT BOOTH

3 STEPS WALK

FEATURES

The key feature of our disinfectant fog system is that it discharges **FOG** and not mist. No wastage of expensive disinfectant, pedestrians walking through will not slip or fall as the floor will not be wet.

- 1) System is automated with photo-cell sensors complete with **SERIE 8 RUBY INSERT FOG NOZZLES**, photo-electric sensor, junction box with manual control switch, relay, 100 bar high pressure pump, SS tank, SS tubings, valves and accessories.
Power supply 230 VAC/50Hz/1 phase .

System above is S\$2,500 per set.

- 2) **Modular** spray booth is easy to install at site. Dimension 800mm (Width - entrance/ exit), 1400mm (length) x 2000mm (height) Frame is constructed of aluminium profile. Entrance and exit is installed with collapsible rubber barrier. Sides are enclosed with plastic canvas.

Spray booth S\$900.00 per unit
